---

**Patricia:**

**If it is in the afternoon, I can. I will be in Houston and have to travel by truck to Austin and then return that evening as we are currently conducting removal actions.**

**I would also talk with Amy to see if she has an issue. I don't think she will except to let me know not to discuss the EPA Enforcement Activities. I will talk with her as well but it may be better if you indicate that it would be helpful to have me there.**

**Let me know time.**

**Thanks**

Gary,

I will check into your first question regarding the waste letter. I have never dealt with this, but I will find out who does and get an answer.

In regards to CES, I spoke to Amy Salinas yesterday afternoon regarding the EPA's information that could be released from the CES site. She said the action memo, any pol reps and analytical data could be released. Anything EPA information beyond these items I will seek EPA's approval before releasing. In regards to the CES site, I understand that you have agreed to attend a meeting to provide site information to the parties TCEQ sent letters to. Will it be possible for you to attend this meeting on the afternoon of Wednesday, October 22 at the TCEQ offices in Austin?

Thanks,

***Patricia J. Scott***

**Patricia:**

I understand that you are working with Audrey Smith, Omar Valdes, and others on the issue of fees. Can you tell me from a TCEQ perspective what fees are allowed to be charged to the TCEQ when conducting cleanup operations? I have never asked this question so I am trying to figure it out.

Also, did you have a chance to talk with the EPA Attorney, Amy Salinas, about the information to provide to those that you guys sent notices to concerning the site. I have not yet heard from Amy so I am checking with you.

Thanks
